

CAMELEON
HOME ART

O nama | About us

Modna kuća Cameleon doo osnovana davne 1997. godine, više od dve decenije bavi se proizvodnjom i prodajom muške i ženske garderobe i veša. Brend Cameleon decenijama, zahvaljujući kreativnom i inovativnom timu dizajnera i menadžera, neguje liniju koja je prepoznatljiva.

Godine 2019. odlučili smo da odemo korak dalje. Oformili smo proizvodnu liniju za hromiranje metalnog nameštaja najvećeg kapaciteta u Srbiji i proizvodni pogon za obradu preciznih čeličnih cevi. Uz višedecenijsko iskustvo u modeliranju, krojenju i šivenju različitih vrsta štofova, započeli smo proizvodnju modernog nameštaja sa metalnim konstrukcijama visokog kvaliteta stvarajući novi brend pod nazivom Cameleon Home Art.

Cameleon Home Art u ponudi ima komforan nameštaj namenjen opremanju poslovnog i stambenog prostora. Lako se kombinuje i uklapa u sve stilove enterijera, od klasičnih do modernih. Naša atraktivna linija prati svaki dobro uredjen savremeni životni prostor koji sa našim nameštajem dobija jedinstvenu dimenziju.

Noseći delovi nameštaja izradjeni su od preciznih čeličnih cevi koje su u našim proizvodnim pogonima dodatno zaštićene hromiranjem ili plastificiranjem. Savremenim dizajnom i kvalitetom obradjenog materijala pratimo i ravnopravno konkurišemo svetskim trendovima.

Cameleon doo fashion - founded back in 1997 has been long engaged in the production / sales of men's and women's clothing and underwear for more than two decades. During the decades, thanks to the creative and innovative team of designers and managers, Cameleon brand has established and nurtured a distinctly recognizable line.

In the year 2019, we decided to take one step further. We created our own chrome plating line for our metal furniture with the largest capacity in Serbia and a special metallurgy facility for processing precision steel tubes. With several decades of experience in modeling, cutting and sewing different types of fabrics, we started the production of modern furniture with high-quality metal constructions, creating a new brand by the name - Cameleon Home Art.

Cameleon Home Art offers comfortable furniture intended for equipping both business and residential spaces. It is easily combined and fits into any interior style, from classic to modern. Our attractive line accompanies every modern living space, giving it a new and unique dimension.

The furniture construction is made of precise steel tubes, which are additionally protected by chrome plating or plasticization in our own manufacturing facilities. Accompanying modern design and high quality of processed material, we are able to equally follow and compete with the current World trends and market.

Corner Sofas and Sets

Corner sets and sofas suit modern trends and the latest market requirements. They are made of metal construction with upholstery of the highest quality using HRT sponge and silicone filling. Wire core or elastic straps significantly contribute to the overall comfort.

Size š/v/d 45/54/60 cm

ENCOURAGES CORRECT SPINE
POSTURE By tilting the pelvis forward
and keeping the knees lower than
the hips, the spine is encouraged
to adopt the correct posture. The
weight and pressure of the upper
body is reduced to only 35% and
therefore the blood flow to the
spinal discs is better.

COMFORTABLE: The body weight is distributed between the back, thighs and lower legs, unlike a traditional chair where the lower part of the back is the only one bearing the weight.

IMPROVES THE ACTIVITY OF INTERNAL ORGANS
Breathing, circulation, digestion, reduces tension in muscles, joints and tendons, improves concentration, less overall fatigue and improves work productivity.

Dining Tables

Dining tables are made of profiled pipes. The surface protection of metal construction is done by chrome plating or plasticization. The table tops are made of veneered or painted MDF with a faceted bucket finish. Most of the tables are equipped with an extension mechanism in order to increase the length of the table.
